Shades Of Change In '88

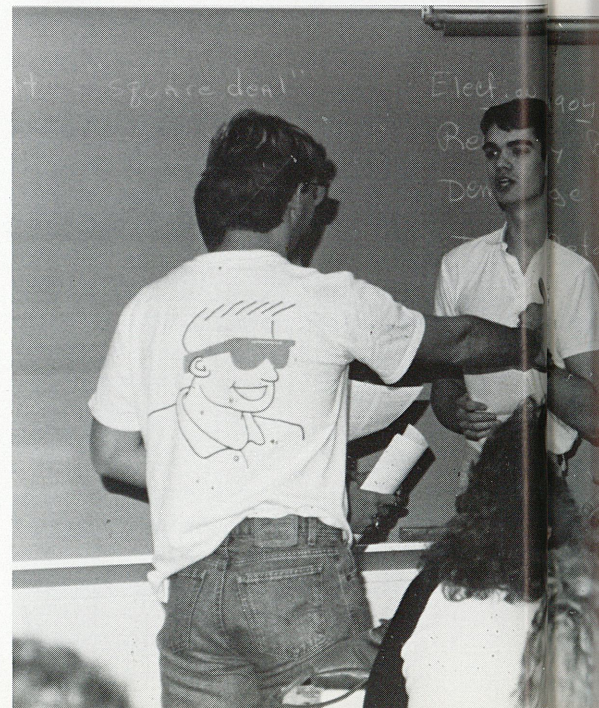

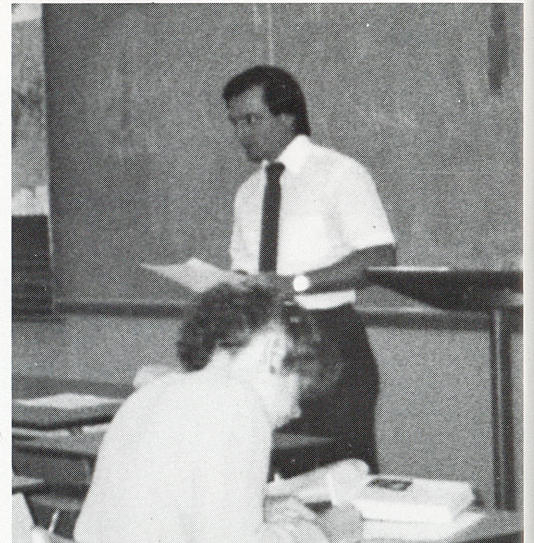

We do not succeed in changing things according to our desires, but gradually our desires change. The situation that we hoped to change because it was intolerable becomes unimportant. We have not managed to surmount the obstacle, as we were absolutely determined to do, but life has taken us round it, led us past it, and then if we turn around to gaze at the remote past, we can barely catch sight of it, so imperceptible has it become.

Marcel Proust

Change is what has allowed our society to progress over the years. Sometimes change is welcomed; other times it is dreaded; but always it forces us to take a closer look at where we have been, where we are, and where we are headed in the future.

Kiski Area High School has experienced many changes since the opening of its doors twenty years ago, but the 1987-88 year presented more changes than most. Some physical changes occurred, such as a new gym floor, tennis courts, and repainted buildings. Other, less perceptible changes occurred, such as a change in the style of the marching band and the addition of several foreign exchange students to Kiski's student body. In addition to these changes, there was the transition that all students went through as they developed and matured as students and people at Kiski.

This book is offered as a tribute to all the changes that have occurred within our high school this year. It serves as a reminder that life is full of shades of change.

There Is A Time For Everything

He sets the time for birth and the time for death,
the time for planting and the time for pulling up,
the time for killing and the time for healing,
the time for tearing down and the time for building.

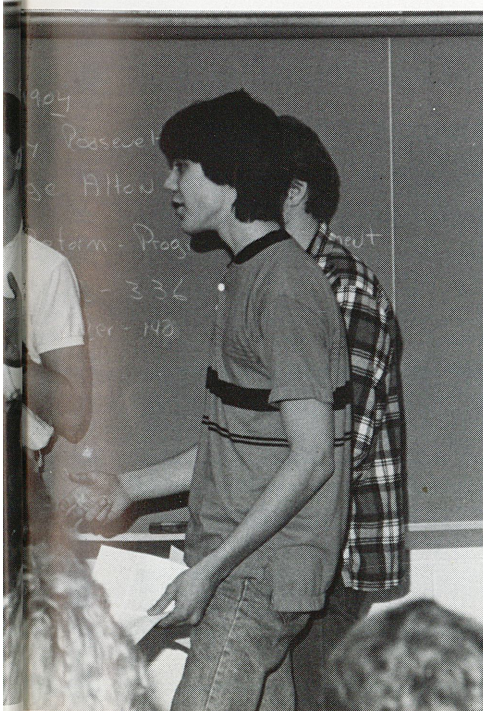

He sets the time for sorrow and the time for joy,
the time for mourning and the time for dancing,
the time for making love and the time for not making love,
the time for kissing and the time for not kissing.

He sets the time for finding and the time for losing,
the time for saving and the time for throwing away,
the time for tearing and the time for mending,
the time for silence and the time for talk.

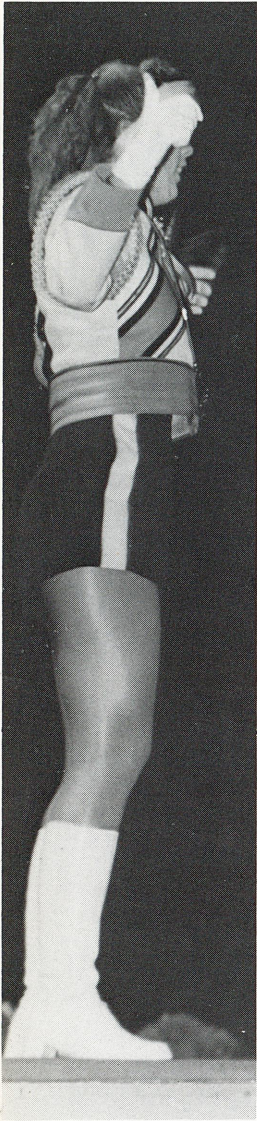

He sets the time for love and the time for hate,
the time for war and the time for peace.

ECL 3:1

IT IS OUR TIME FOR CHANGE.

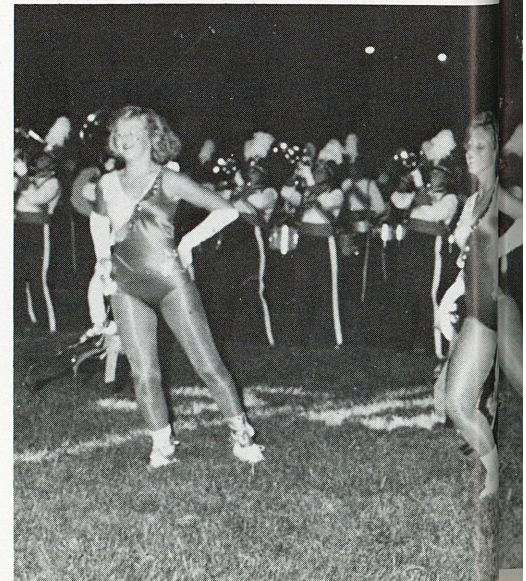

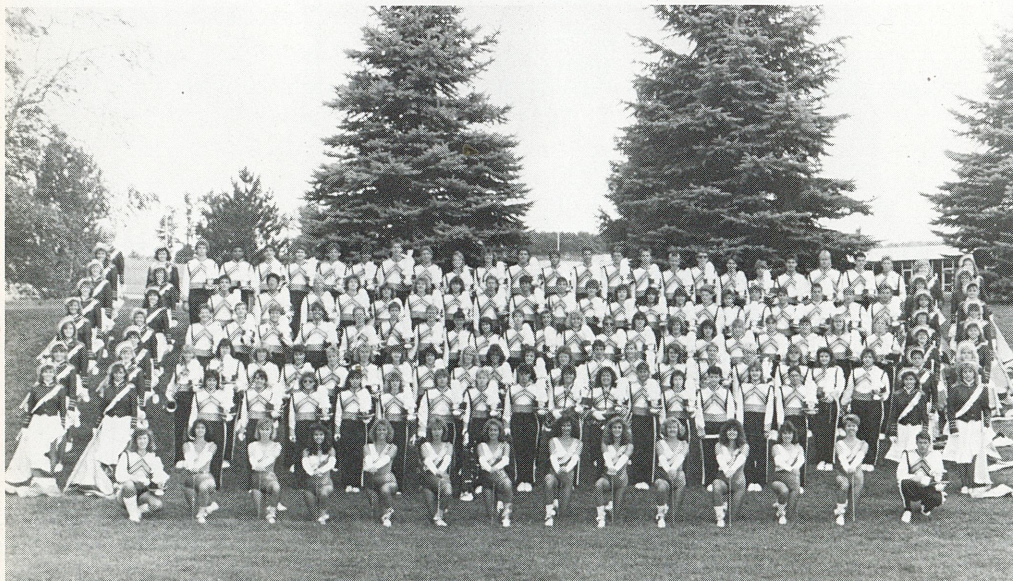

Eastern Regional Marching Bands Class

"Stand up tall" . . . "roll your feet" . . . "keep your chins up" . . . "win with class, lose with class" . . . "make it better." These are just some of the quotes that helped the Cavalier Marching Band get where it is today. The band has undergone many changes in the last three years, making this year's seniors the backbone of this new program. A major impact on the band was that of becoming a competition as well as a football band. Being a competition band called for more hard work, dedication, long hours, and patience. In spite of this added work load, the band adjusted well to the new schedule, and it was not long before a new style began to emerge. This new style included the roll step, equipment exchanges, and new uniforms, all of which gave the band a look of confidence as well as class.

Class is an important aspect of the band members lives. Even though the band has been good for the past three years, they have not won first place everywhere. Although the initial feelings of sadness and depression were present, the members also took their experiences and learned from them. Improvement of the band has come in this manner, and this can be attributed to the new, hard-working staff.

Champions Of America AA

The staff, with Scott Koter at the helm, was introduced to new and different ideas, just as the band was. Mr. Koter was also a new addition to the Kiski Band. Not only does he direct the band, but he is also faced with the responsibility of finding educated staff members and choosing music. Because of a director's many responsibilities, the success of a band is usually attributed to him. However, Scott Koter, director of the marching band, feels that the success of a band is the result of hard-working students, not directors.

Many new and exciting ideas have been construed in the band room of Kiski during the past three years, and they have all helped the band in some way. Great feelings were had by all members this past year when the band was announced as the Eastern Regional Class AA Champion. These feelings return every time a member thinks of the fun, the excitement, and the thrill of winning over thirty trophies in one year. The success in changes has led to the happiness of the Kiski Area Marching Band, but it has also led to much more. Now, band members no longer feel alone or rejected, for as they look at the band, they see togetherness with a family of friends.

"Only The Best"

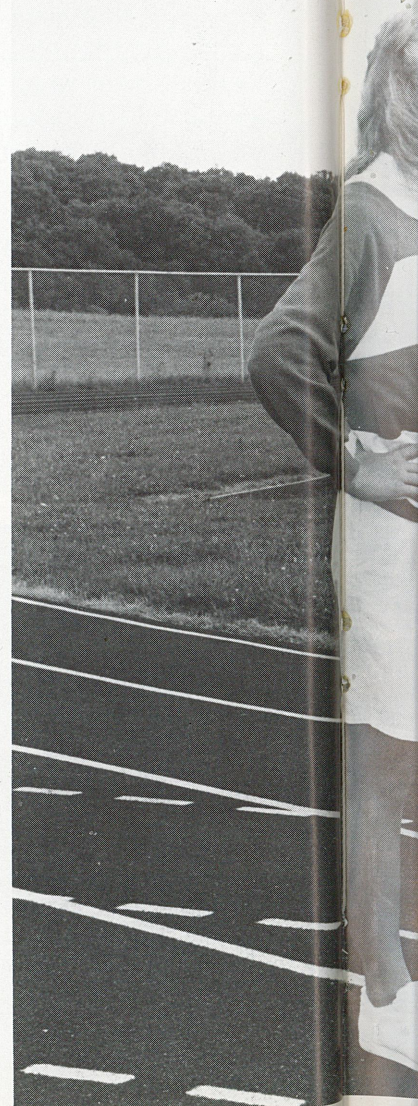

When track season began in the spring of 1986, the runners of Kiski Area had been anticipating more than just the first day of practice. They were the first ever to run on the now \$187,097 track that was installed last fall, replacing the old cinder track that had been there for so many years.

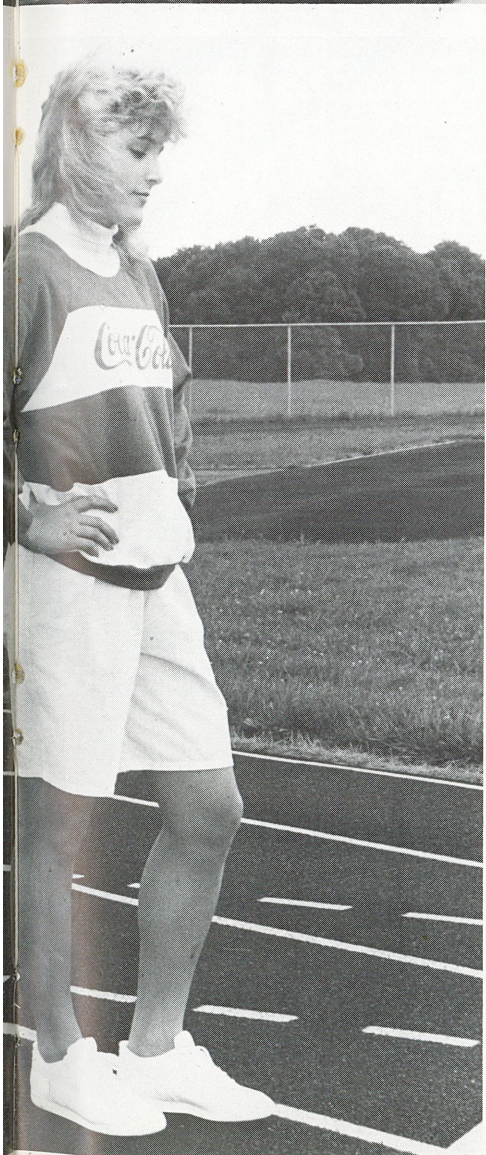

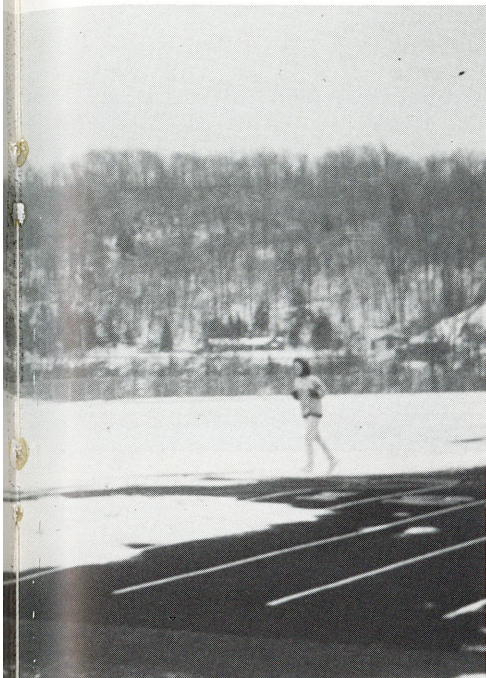

According to Maintenance Superintendent Paul Azinger, crews from the Burrell Construction Company began in late June to remove, in some cases, up to two feet of cinders from the old surface. Layers of shale and limestone were then added to build up a base for the three-inch asphalt layer.

The final, all-weather surface, considered to be the finest available, is manufactured by Michelin and is similar to the company's tire products. The surface was intended to make Kiski's track one of the finest in the area. Last fall, a Baltimore-based installment company began to lay the one-inch rubber layer. The Baltimore Company is one of few that possess the special machinery required to install the surface.

New fences were also placed around the track. They were designed with two specific purposes in mind. The outer fence was designed to keep motor vehicles and bicycles from being driven onto the surface. The eight-foot height was chosen to prevent bicycles from being lifted over, and the turnstiles were to prevent them from being driven thru the gates. A four-foot fence was considered adequate to keep spectators from entering the competition area, once inside.

"It Takes A Lot Of Practice"

The track is appreciated by residents of the Kiski Area School District.

Kiski Area houses a winner. Cammie Biss is presently second in the WPIAL Championships, ninth in the state and eleventh in the nationals. Currently, she holds the record at 12.1 for the 100 meter dash.

Last year, Cammie participated in the AIC, which includes schools surrounding the district. She broke and now holds the meet record at 12.3. She continued on to break her own record to 12.1 right before the WPIAL finals. At the AIC, another team's coach approached her and asked her to partake in a track team that travels across the nation. Immediately after the state meet, Cammie began training for the summer meets called the National Junior Olympics. She had to advance (take first) in three qualifiers which eventually led her to Brigham Young University in Provo, Utah. At this meet, she placed eleventh in the 100 meter dash making her eleventh across the nation.

Cammie, who is a junior at Kiski, has been interested in track since her childhood. In 4th, 5th, and 6th grade, she participated in the Junior Olympics held at Kiski each year. She trains year round- sometimes running up to 3 miles twice a week and sprint drills. Running with the girls track team, Cammie specializes in the 100 meter dash but also runs in the 200 meter dash. She feels that Mr. Halli (the girls track coach) has influenced and helped her the most. "He told me that if I really put time and effort in to what I was doing that he knew I could do well", she says, relieved that she got over her laziness.

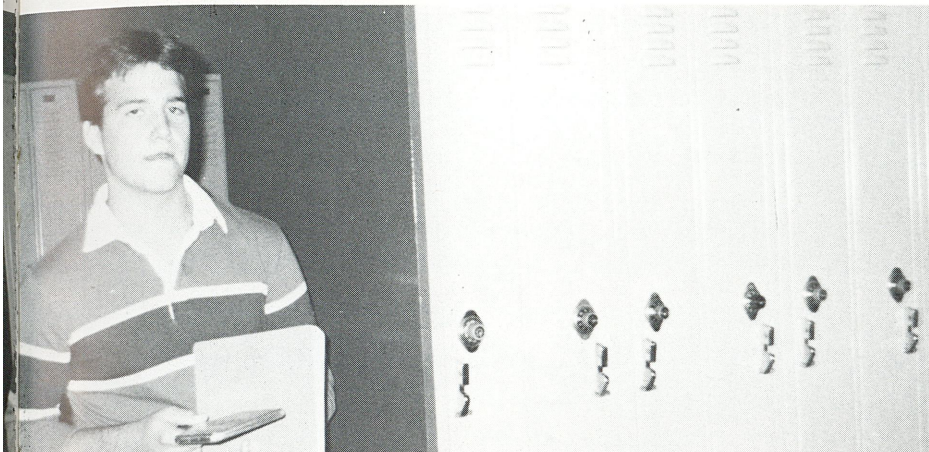

Cammie felt that her junior year was the most vital and was training and trying her hardest in hopes of getting a scholarship to a good college.

A New L

This past fall when Kiski students returned to school, they noticed a change in the appearance of the classroom buildings. The walls and lockers were repainted by Kiski janitors during the summer break. The fresh paint was a bright step forward in improving the atmosphere of Kiski. The clean, new look of the school has had an uplifting effect on the school and its students. Kiski now looks more like the special place that its 1,437 students know it to be.

Look

Construction of the Kiski Area High School gym floor was started during the latter part of the summer. Major renovation was necessary because of the new three point rule in basketball and of the poor condition of the floor. In addition to the one main volleyball court, two adjacent volleyball courts were added to make tournament play possible. The work on the gym took a couple of months but once it was completed the new gym looked quite impressive. The color of the floor changed slightly in shades of blue and the emblem of the mighty Cavalier was painted boldly in the center. With the new scoreboards put in a year ago, the gym improved greatly in appearance. The new gym floor brought an air of pride and optimism to the athletics program of Kiski Area which will continue through the years and affect many generations of athletes.

Kiski takes on a new look

This fall a big change can be seen on the tennis courts. The old, cracked concrete courts were replaced with the Omni System, a combination of sand and synthetic fiber, and Kiski is the first school in the area to have this special surface. The synthetic fiber, or astroturf, is very durable and the lines are inlaid in its surface. After rain, the new courts dry faster because of the sand. The removable posts also make the courts interchangeable so that they may be used for other activities. This new court system contributed to the tennis team's season of success.

"The Place To Perfect All Your Work"

The Pennsylvania Governor's School for the Arts on the campus of Bucknell University provides students with an opportunity to improve their skills and knowledge in one of five creative areas: theater, dance, art, music, and writing. A guest-artist series, film, field trips, student performances, and exhibits are all part of the experience.

It is truly an honor to be accepted into this program. Approximately two hundred students from our state will attend the Governor's School from July 3 to August 6. We wish the best of luck to those who will attend this summer and congratulations to Jim Campbell who represented our area last summer.

A Different Way Of Life

"In between my junior and senior years of college, I would like to return to Africa and spend some time skiing in the Atlas Mountains." These are all future plans of Laura Mazur, a senior at Kiski. Laura recently had the opportunity to spend some time in Africa during the week of October 10-17, 1987. She traveled by plane for seven hours to reach Africa. The way of life seemed primitive at her first glance. The airport had no airconditioning and customs was unbearable. What usually takes five minutes turned into a two hour ordeal with custom officials hand checking each article of luggage.

Laura had arranged to stay with The University of Pittsburgh tour group. She traveled with her grandmother, parents and tour group to the small, old cities called "medinas", where she spent most of her time. Life in an African medina varies greatly from that of our American lifestyle. There is no electricity in these small villages and many people live in clay houses with no windows. The first language of Africa is Arabic; the second is French. Africans harbor resentment toward Americans and their way of life.

Job positions present a lot of diversity in Africa. The development of working opportunities halted before the progression of the industrial stage. The common jobs are tanners (leather makers), bakers, embroiders, copper-smiths, silversmiths, and butchers. The women of Africa usually stay at home to keep house, raise the children, farm the fields, and embroider. Children usually have free run through the medinas trying to hawk trinkets to tourists. An interesting job that is no longer a prominent one is artisan work. The temples are adorned in mosaic-like tiles, each hand cut and positioned into a collage of designs. These tiles have also decorated such Holy places as Mohammed's tomb and sacred shrines of Africa.

Business life in a medina carries only one goal-to obtain enough money to leave the medina. One way people of Africa attempt to achieve this is through the business practice of haggling. A smart businessman of a medina will price his goods at twice their actual worth. The consumers soon learn to start their haggling at 1/3 the actual price. Most consumers eventually pay approximately half the original amount marked. This is considered smart business in Africa. To gain enough money to leave the medina would mean a life of better quality in one of the larger cities.

The large cities are in direct contrast to the small medinas. An example of the extent to which these extremes go is the comparison of the mud houses of medinas to the so called palaces of large cities. The larger cities have a higher standard of living. These cities usually have electricity and a more modern setting. An African's goal in life is to climb up the economic ladder to live in the larger cities.

Laura found a diverse society in Africa with many beliefs differing from her own. She has learned a rare appreciation of a culture foreign to her own.

Kiski's First

Coach Dilts 200th Victory

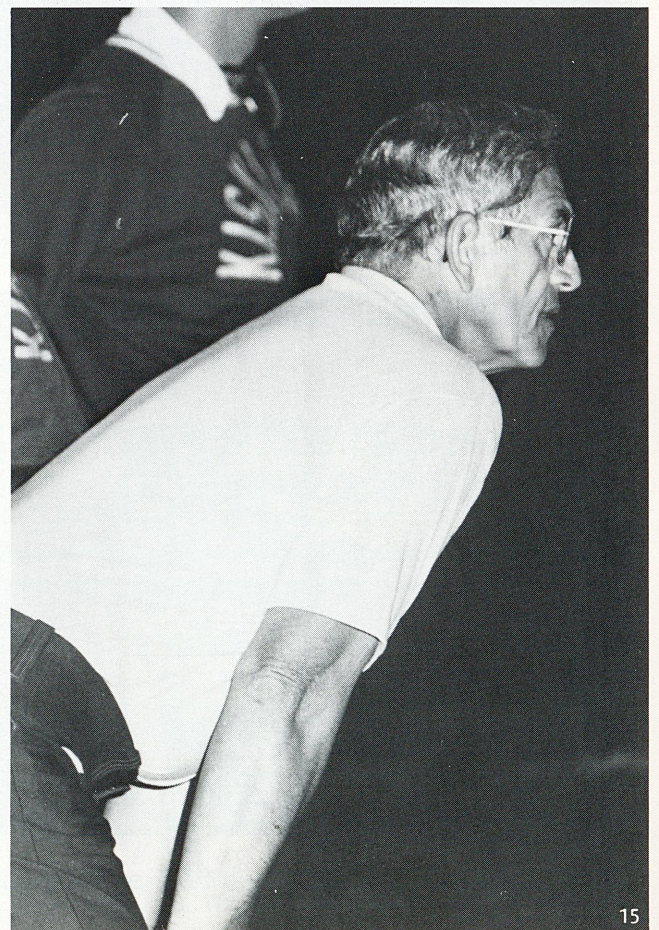

And Only

Coach Richard Dilts humbly attributes his success to his excellent coaching staff and dedicated players. "The first 199 were easy", Dilts remarked jokingly in early September. "The 200th is the hard one." Coach Dilts gained his 200th victory on September 18, 1987 against Seneca Valley. This brings his record to 200 wins 85 losses and 6 ties. This is a record of which Coach Richard Dilts has cause to be proud.

This winning career started at Richland where Dilts was head football coach for four years before he moved on to Kiski. All in all he has been in the head football coach position for 30 years. When people wonder at what time he will feel it is time to move on his answer can be clearly heard "I just thank God, because He answered my prayers. I'm where I'm supposed to be."

The people of Kiski tend to agree with this attitude after Dilts led the Cavaliers to 12 section or conference titles and one W.P.I.A.L. championship in 1971. Almost all of the Cavalier assistant coaches played previously on championship teams. Past and present assistant coaches have played a key role in the Cavaliers' success. But one person that Richard Dilts feels he owes it all to is his wife Sally. She stayed by him for 34 years and cheered him up during the down times. Kiski at the same time feels a kindred gratitude directed toward him, their first and only head football coach.

Kiski activities range from educational to pure enjoyment.

*Yearbook
Staff*

Campus

Members of the Production Staff learn the intricacies of laying out a yearbook page.

Campus Staff

Our job began at the end of last school year. We met over the summer to formulate our ideas for the upcoming year. As this year progressed, we realized our goal was to make the best yearbook in order to please as many students as possible. Change, our objective, was meant to enliven the school spirit with new traditions. School spirit is an important aspect of the yearbook.

The energy of each staff member is incorporated into each page of the yearbook. The vitality of the literary staff keeps our theme consistent throughout the book by brainstorming and writing stories and captions. Production staff has learned the importance of page position and how to keep pictures consistent within a page. Each member learns the meaning of words such as: pica, double page spread, bleed into the gutter, characters, overprint, tint block, etc.

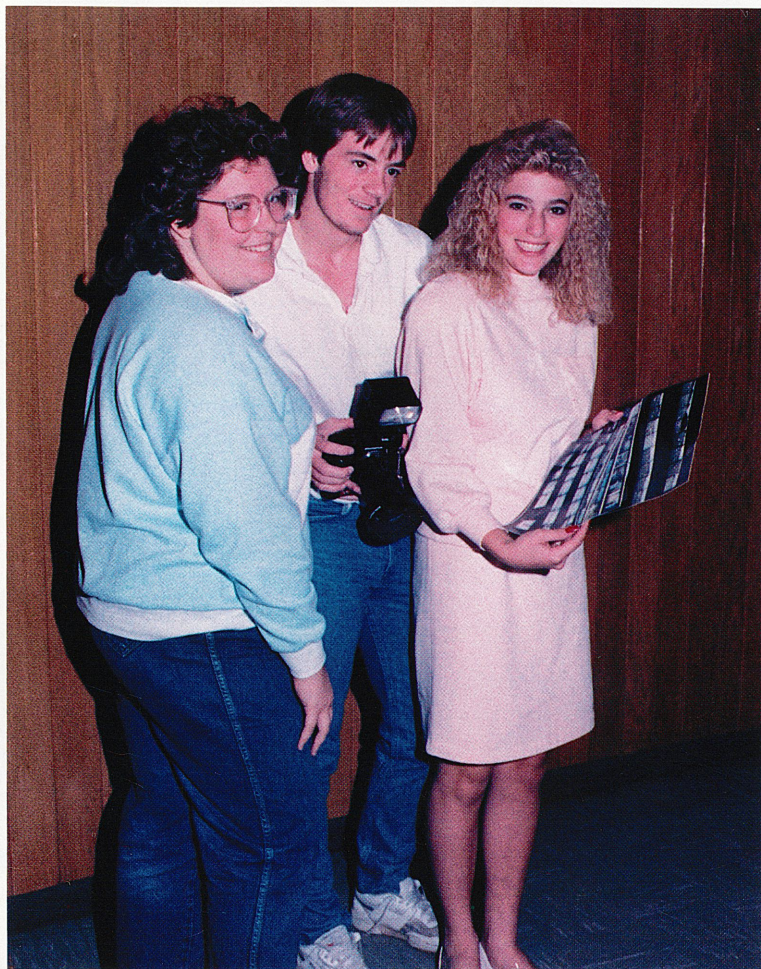

The uniqueness of our yearbook is based upon the fact that we alone finance it. Our fund is raised through donut sales, business ads, parent patrons, student messages, student payments, and the Senior Class contribution.

Greg Balla works as the advisor of the staff. His job has many facets including: teaching students how to truly appreciate the work and dedication that it takes to compile a yearbook, guiding us in each of our decisions, and giving us much needed input. This job entails many long hours spent after school on seemingly useless projects.

At the close of the year, we find our efforts worth the toil. The appreciation we receive from the faculty and the student body makes all we do worthwhile. Although we began before the school year, our job will not be completed until the close of our senior year.

The Executive Staff,
Tacie, Amy, James, Cindy

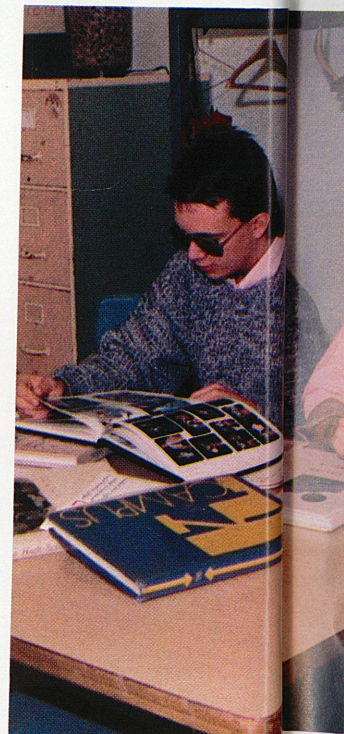

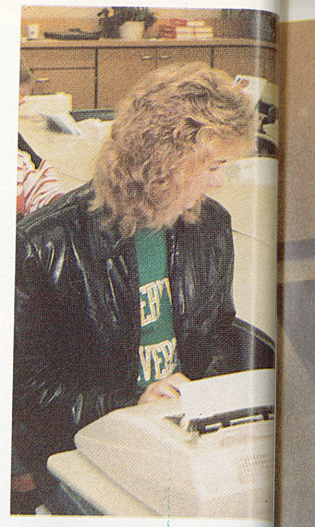

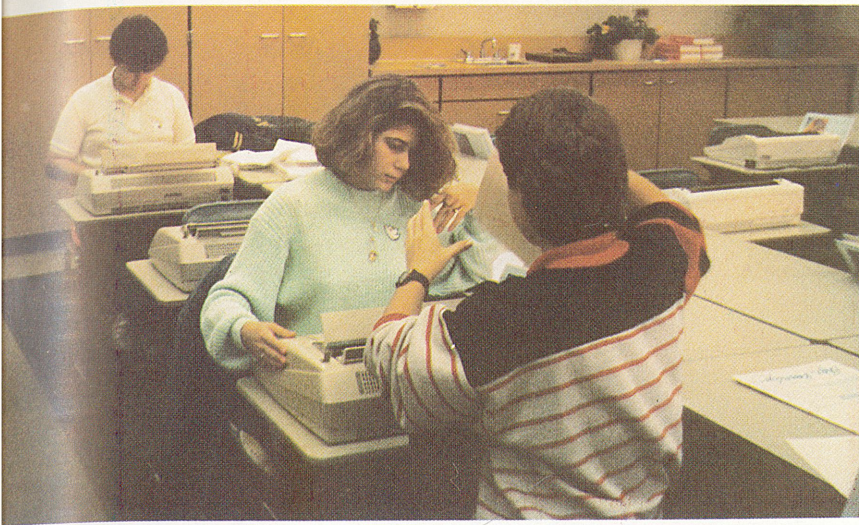

Above: James and Amy working hard once again.
Left: Greg Balla, staff advisor, guides in the decision-making process.

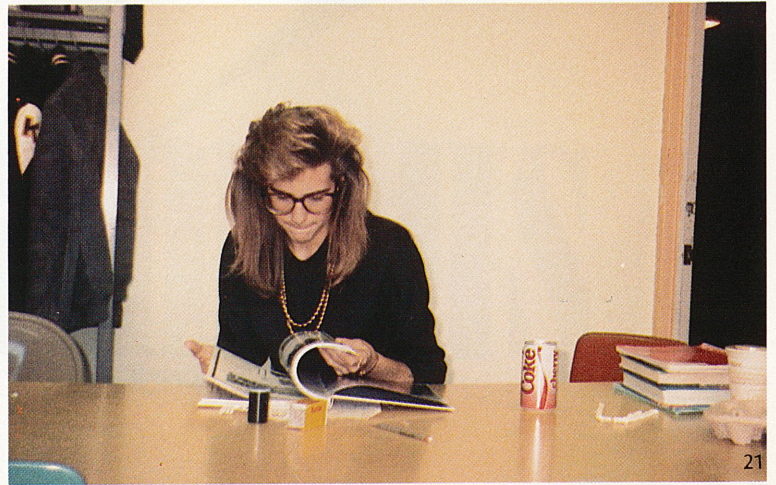

Dedication is an integral part of being a staff member, exemplified in the Executive Staff which consists of James Carroll, Co-Editor; Tacie Tonks, Editor-In-Chief; Cindy Shields, Business Manager; Amy Fisher, co-editor.

The staff members learn to help each other in order to fulfill their responsibilities.

A U T O G R A P H S

Seniors

Campus

The graphic features a large, bold, black letter 'C' that serves as the primary visual element. To the right of the 'C', the word 'Seniors' is written in a black, cursive script. Below the 'C', the word 'Campus' is written in a large, bold, black serif font. The background consists of a large triangle filled with thin, parallel black lines that slope downwards from left to right. The entire design is set against a plain white background.

Senior

Presenting the crown, Chevonne Mitchell

The Crowning Of Our 1987 Homecoming Queen

The crowning of Kiski Area's 1987-88 Homecoming Queen took place on Friday, October 9. Kiski fans of all ages gathered together for this extra special football game. The stands were filled with laughter and excitement, and the air was warm despite the falling temperature. The court members and their escorts looked stunning as they rode through Vandergrift to Davis Field in dazzling convertibles. With hair done just so, make-up perfectly applied, and their outfits picked out with meticulous care, the court waited with anticipation throughout the first half of the game. The mighty Cavaliers charged up the field while the band played and the cheerleaders cheered their loudest, the candidates' stomachs churned in anxiety waiting for halftime.

The clock ran down and halftime came at last. Playing the traditional homecoming tune, the band and Alumni Band, consisting of band members from years before, put on a program leading in to the marching band's performance. After being introduced, Kierstin Lang and Rick Radebach, Lisa Hagerman Mark Owen, Tammy Gorelli and Richie George, Jennifer Hunter and Jared Sofaly, Jennifer Rossi and Daniel Wallace, and Dana Walton and Martin Stewart, strolled down the field.

Knowing that only one of them would be chosen, the girls waited with eagerness for the booming voice of the announcer overhead. Last year's Queen, Kelly Lengauer, with escort Rich Mottura, returned to crown this year's Queen. The music halted; the name Kierstin Lang rang throughout the stadium. She will forever be remembered as carrying on the glorious tradition as a Homecoming Queen of Kiski Area High School.

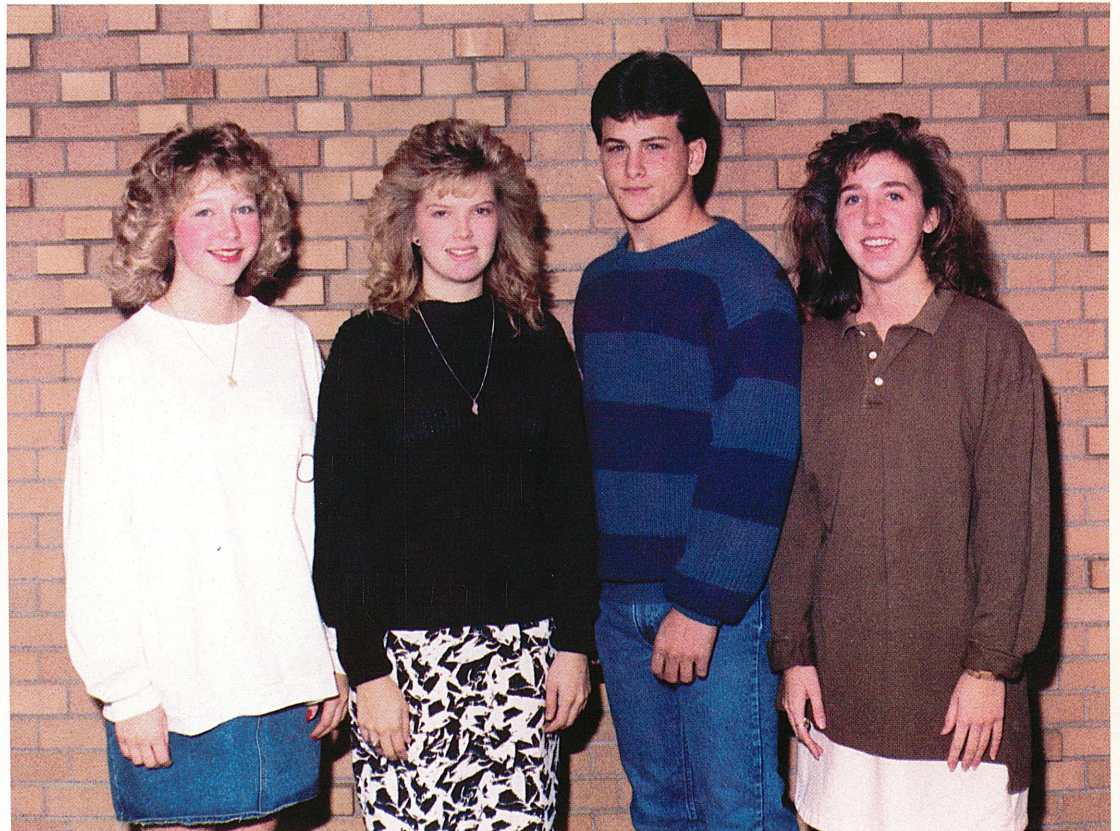

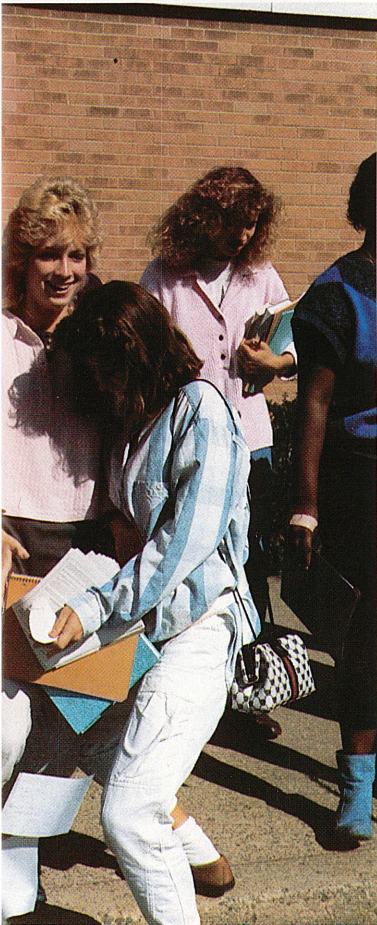

Top Left: Our men working in the kitchen.
Top Right: Taking a leisurely stroll across the campus.
Bottom Left: Let's get educational!
Bottom Middle: Deanna strives for a victory in a cross country meet.
Bottom Right: Oops!

Changing Today For Tomorrow

We started to change years ago . . . to begin to understand that sometimes our friends weren't really all-knowing and that our teachers didn't always have the answer . . . and to see that there was another world beyond these years that would challenge us again, only in different ways . . . and sometimes we'd have to take a stand even if to others we were wrong . . . then came those times when we had to find the answers to impossible questions . . . and we began to realize that sometimes our parents did make mistakes and that they couldn't change the world for us or protect us from each other. We suffered because of what we chose to do . . . but our friends came back to us and cared about us regardless of what happened . . . and we learned what love is . . . and we learned to give of ourselves and discover that selfishness only made us unhappy . . . finally the most important part of us developed . . . we struggled with our decision to be what we could be . . . we worked at it all the time, no matter how difficult it was . . . until one day we looked at ourselves and saw people who were capable of making decisions . . . who were able to tell everyone that we are who we wanted to be . . . not what others try to make us . . . we are the ones who will make a difference . . . who will give back a part of ourselves . . . who have finally "grown."

Over the summer, the band and football team spent many long hours at practice. The effort and concentration needed to play to the best of one's ability is exemplified in both of these groups.

A U T O G R A P H S

Kiski makes us proud when the practice finally pays off!

Juniors

Campus

The graphic features a large, bold, black letter 'C' that serves as the primary visual element. To the right of the 'C', the word 'Juniors' is written in a black, cursive script. Below the 'C' and 'Juniors', the word 'Campus' is printed in a large, bold, black serif font. The background consists of a large triangle filled with thin, parallel black lines that slope downwards from left to right. The entire composition is set against a plain white background.

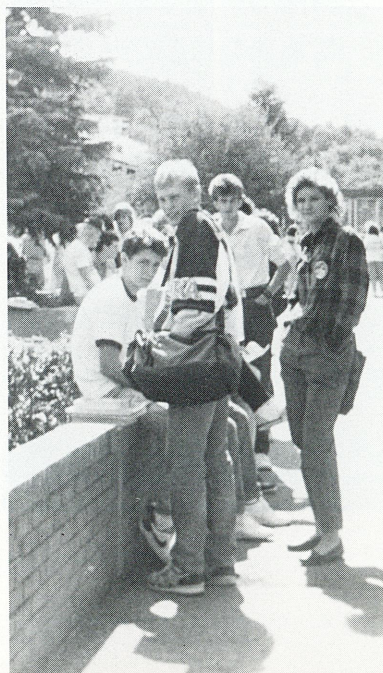

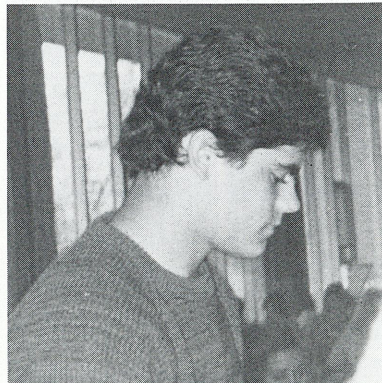

Junior class officers: Shawn Troup (Secretary), David Fields (Vice-President), Cammie Biss (President), Allison Lengauer (Treasurer)

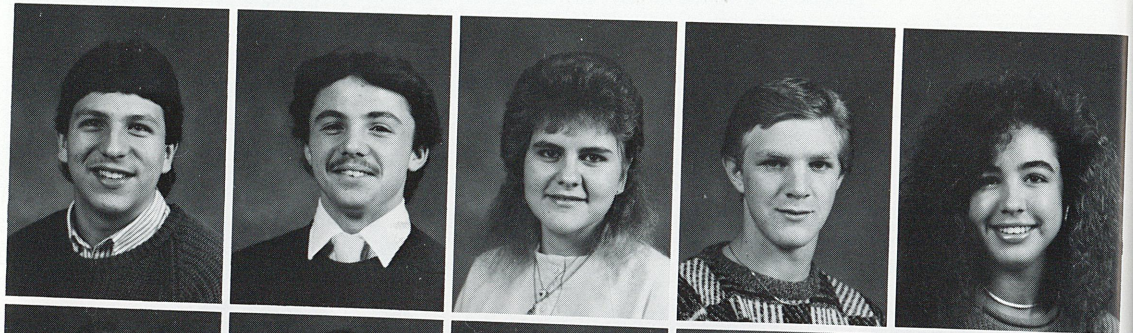

Of all the junior classes that have roamed the halls of Kiski, none have been subjected to the number of changes forced upon this year's class. To begin with, this class was the first freshman class to come to the high school. Understandably, they were even more timid and fearful than normal. Adding to the pressures was the fact that new graduation requirements were being enforced. In no time at all, however, the Class of 1989 had adapted and blended into Kiski's student body. As a very important year began, the juniors received their class rings. They began to actually feel as if they belonged after their freshman and sophomore years had presented so many changes, and left them uncertain and doubtful. After the annual candy sales, the juniors had something else to look forward to-the Junior-Senior Prom. The prom represented a time for fun, a time for happiness, and a time for sharing with friends. The dreaded PSAT's and SAT's were very important for those juniors who will be attending college some day. But not only students planning to attend college were faced with decisions. Others planning marriage, employment, or a career in the armed forces had important decisions to make.

Although the Class of 1989 has undergone and withstood many many changes and had to make decisions, they still have one major transition in store for them during high school-becoming seniors.

Sophomores

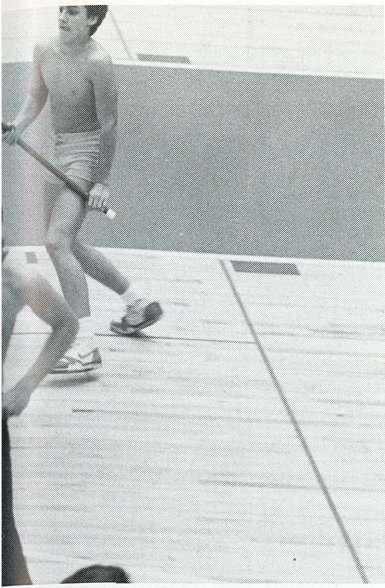

Campus

The graphic features a large, bold, black letter 'C' that serves as a central element. To the right of the 'C', the word 'Sophomores' is written in a black, cursive script. Below the 'C', the word 'Campus' is written in a large, bold, black serif font. A large, white triangle with a black outline is positioned behind the 'C' and 'Campus'. The upper-left portion of this triangle is filled with a pattern of thin, parallel black lines that radiate from the top-left corner of the triangle.

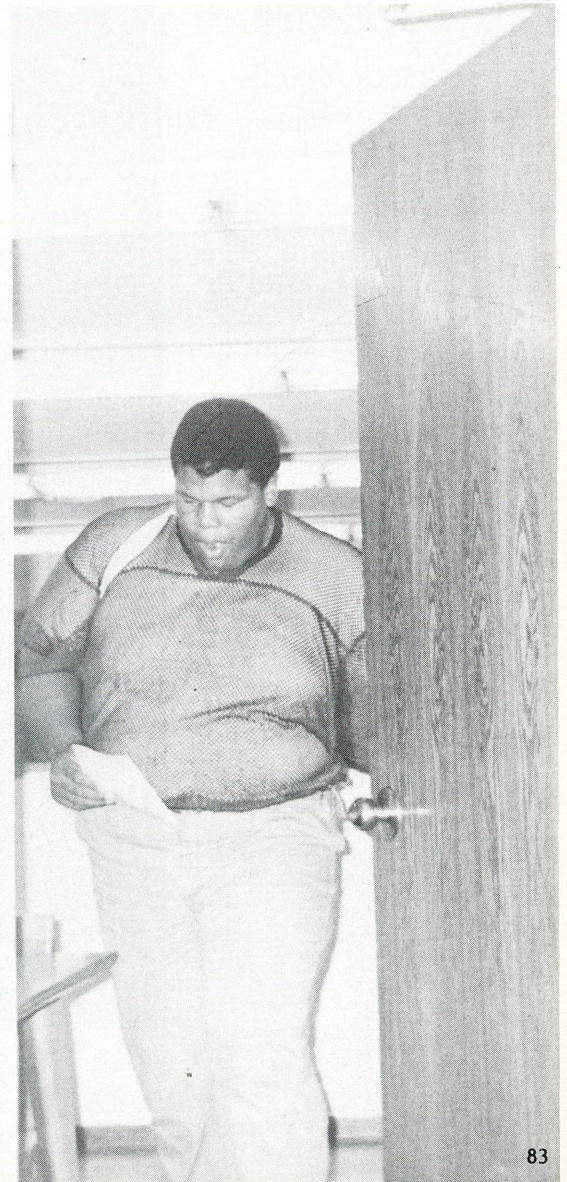

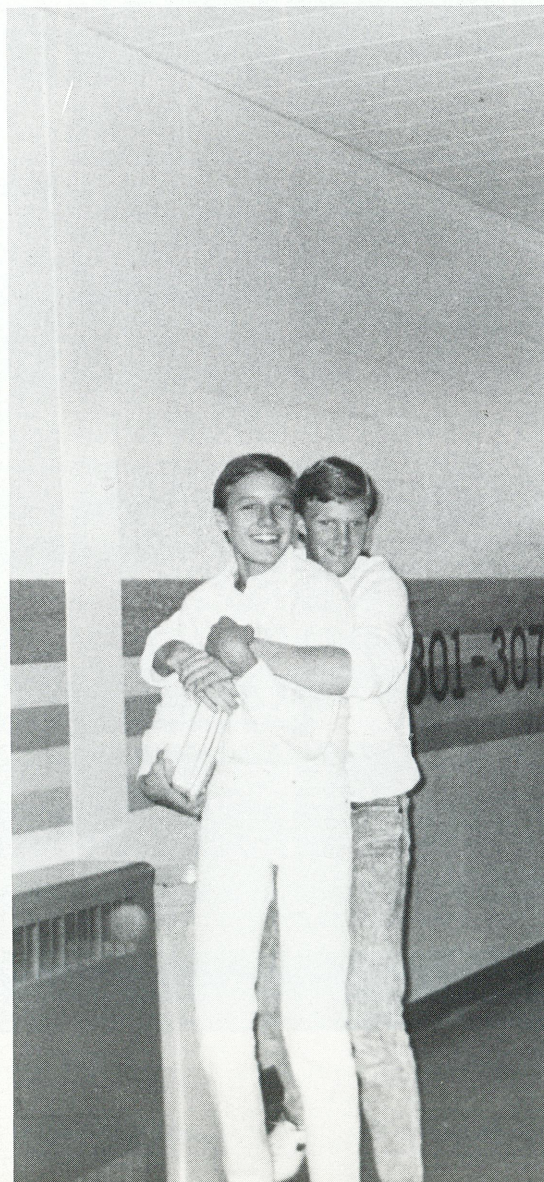

Sophomore class officers: Brandon Wilson (Secretary), Susan LaRusse (Vice-President), Mike McNulty (President), Melissa McKay (Treasurer)

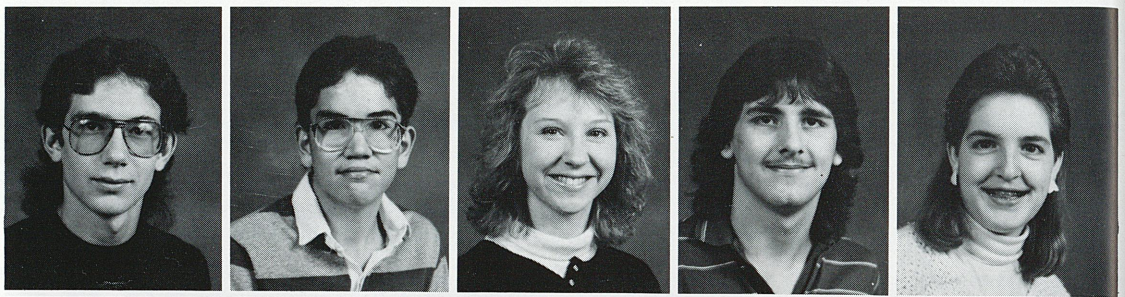

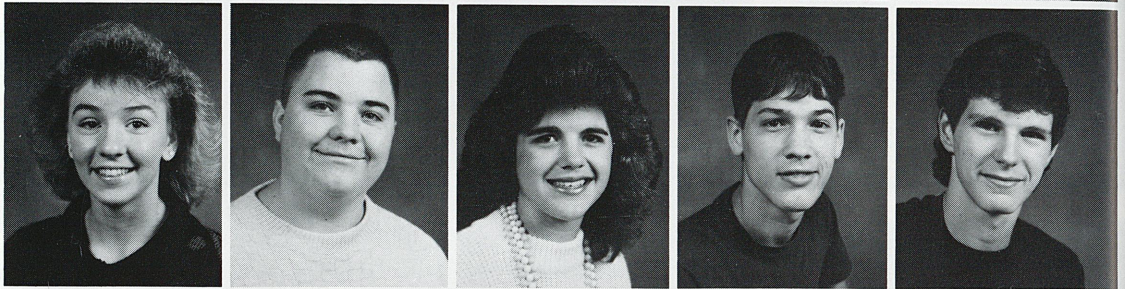

The most rewarding aspect of being a sophomore was the change from being the "new kid on the block" to an accepted member of Kiski's family. The sophomores began to become more involved in extracurricular activities and varsity sports at Kiski. Their sophomore year also included a few special events. First was the ordering of class rings. Decisions had to be made in order to choose a class ring that would truly symbolize the "Kiski experience" of each student. Another much anticipated event for the sophomores was the Freshman-Sophomore Dance held at the end of the year. This year the sophomores displayed more leadership in the planning of the dance. Through this experience, they realized the changes and responsibilities that go hand-in-hand with maturity. As the year drew to a close, the sophomores eagerly looked forward to their junior year at Kiski, which will bring them one step closer to the ultimate change of their high school years—graduation.

Freshmen

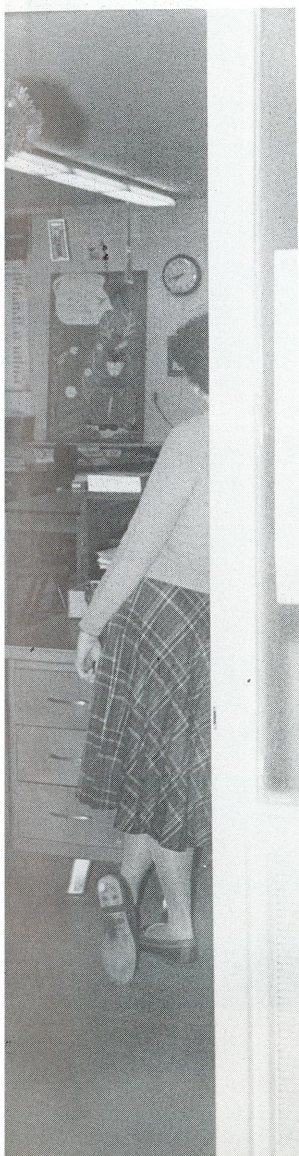

Campus

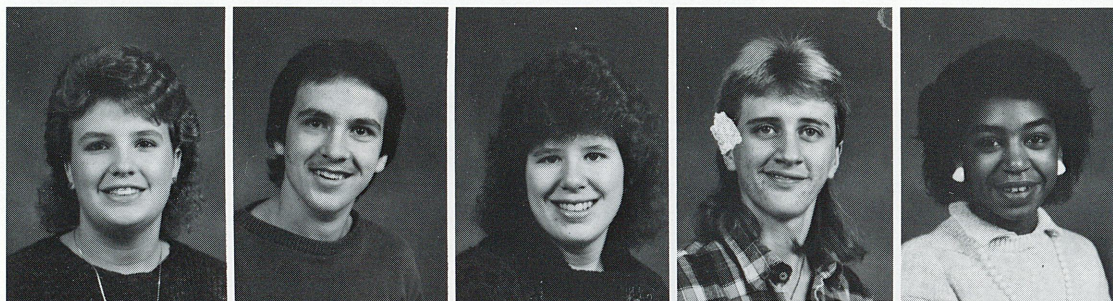

As with the classes before them, this year's freshman class experienced the same doubts and worries that most students face in coming to the high school; Kiski looked enormous and foreboding.

However, each freshman soon found his or her own special place. The new students became aware of the changes taking place in their surroundings, their friendships, and themselves. As they learned that the elevator by room 401 didn't exist or the horror stories of "the tunnel" weren't entirely true, they became more confident and more involved in school activities. Now after completing one entire year the members of the freshman class have become experienced pros, and have shown they can easily meet the high standards set by the classes who preceded them.

Teacher Of The Year

When Mr. James Trunzo was asked why he enjoys teaching so much, he responded, "It keeps me young. I'm always exposed to new ideas and theories. Also, every once in a while I get the feeling that I have actually helped someone, and that's important to me." This is just one of the many reasons why James Trunzo was the recipient of the 1987 Teacher of the Year award. Mr. Trunzo's students enjoy his classes, and feel that his unique personality and sense of humor actually make learning fun. Other students feel that he is understanding, friendly, and always willing to listen. Also, Mr. Trunzo never hesitates to take time out of his busy schedule to help one of his students. In the future, when students look back on Mr. Trunzo's English class, they will always remember that smile, the jokes, the fun they had, and a dedicated teacher.

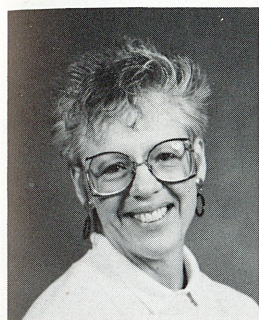

James Trunzo 1986-87 Teacher of the Year

A series of approximately 25 horizontal lines for writing, spanning the width of the page.

Kiski teachers offer their insight for the benefit of the students.

Students get an edge on class with the aid of the faculty.

A large, stylized graphic on the left side of the page. It features a large, bold, black letter 'C' that is partially enclosed by a black outline of a triangle. The background of this triangular area is filled with numerous thin, parallel diagonal lines. To the right of the 'C', the word 'Activities' is written in a cursive script, and the word 'Campus' is written in a large, bold, sans-serif font below it.

Stage Band

9th Grade Band

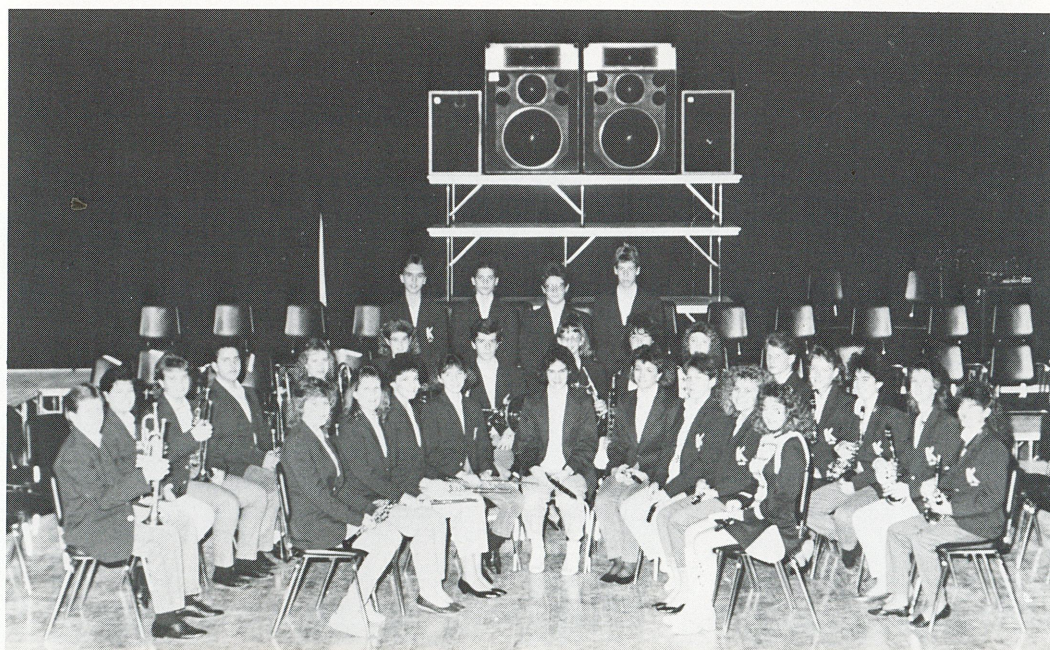

The ninth grade band under the direction of Carmine Botti participated in numerous competitions and concerts including the marching band competition in the fall, the Christmas Parade, Band Night, Memorial Day Parade, and the PMEA Adjudication. The Band presented three concerts this past year: Christmas Concert, the Mid-Winter Concert in February, and the Spring Concert in April. In May the band took a trip to Hershey, Pennsylvania. It was a big adjustment going from junior high to the high school for these students, but they handled it well.

And Honors

Under the supervision of Carmine Botti, the Alle-Kiski Junior High Honors Band consisted of those students who were recommended by their instructor for their instrumental talent. Students who were chosen had two days to practice music given to them before the concert. Students chosen for the Honors Band were also eligible for the Westmoreland County Honors Band and District Band. These young musicians became accustomed to hard work in their strive for perfection.

Jazz Rock

A singing group with flair: Jazz Rock. Under the direction of John McClelland the group excels in musical harmonization, with light dance characterizing them even more. At the beginning of the year, many students auditioned to become a member of the famed Jazz Rock. However, after the auditions were complete, only fifteen members were chosen to be in the group. These students worked very hard and showed their dedication to the group by all their practice. Every morning during activity period, singing could be heard in the halls by the chorus room, and this sound was the Jazz Rock, hard at work. Jazz Rock performs at various places throughout the year, including the Annual Citizens Banquet and the Christmas Telethon. This year an additional spark was added to the group with their new ensembles. The boys' outfits were a metallic gold vest and bow tie with white shirts and black pants, while the girls wore metallic blue and gold dresses to match. This change improved their appearance as well as their school spirit because of the colors. Next year's Jazz Rock will have a big challenge to uphold the class displayed by this year's group.

Paul Baker, Brad Burns, Chris Calhoun, Corey Caugherty, Yvette Caviness, Hope Evans, John Georgvich, Sean Horansky, Todd Paulat, Hope Pollak, Stacy Toy, Lisa Twigger, Mary Voyten, Jenny Weaver, Jody Woodward.

Math Club/Team

NATIONAL HONOR SOCIETY

At the end of every school year, members of the junior class who have shown outstanding qualities of scholarship, leadership, service and character throughout their high school careers are inducted into the National Honor Society. NHS members are chosen by the administration and their teachers and must have an overall scholastic average of 3.4. Each member becomes involved with the club-sponsored coffeehouses and other events including the induction ceremony for new members while still maintaining the qualities for which they were chosen. Mrs. Ruth Filer was the sponsor of the group.

GIFTED FORUM

The Gifted Forum is a Kiski club made up of accelerated students. The students can participate in four areas of interest: English, math, science and history taught by Ron Norton, Cathy Scales, John Varine and Greg Balla, respectively. Mr. Balla replaced Mrs. Crossan, who retired last year. A change in the club this year is that students in each area are required to meet only one period a week instead of two as in previous years. The students spend their time each week discussing various aspects of their field of interest, working on projects and taking occasional field trips to expand their knowledge of the subject.

MATH CLUB

The Kiski Area Math Club is made up of students in grades nine through twelve. Sponsored by Cathy Scales, the group includes student tutors and students who need help with their math courses. One change this year was increased student interest in the club. The club meets every day in the lower cafeteria during activity period.

MATH TEAM

The Kiski Area Math Team consists of a group of talented math students who enjoy competing against students from other schools. The math team competes in two leagues: the Strongland Interscholastic Mathematics League, local teams such as Leechburg and Lower Burrell; and the Mathematics Council of Western Pennsylvania Interscholastic Mathematics League which contains teams such as Gateway and Franklin Regional. The team, sponsored by Cathy Scales, meets every Thursday in the lower cafeteria to practice difficult problems. A change for the team this year is that it has been very successful in local competition.

COMPUTER CLUB

Computers are a vital part of our society. Today, more than ever, an understanding of how a computer operates and what can be done with the computer is necessary. The computer club helps students better understand these concepts and even gives them hands on experience using Apple computers.

The computer club is celebrating its second anniversary this year under the supervision of Larry Dudzik who is also the head of the Computer Department. This year the computer club planned several field trips and a few fund raisers.

CHESS CLUB

The game of chess is one of the most challenging and difficult games today. It takes superior concentration combined with an understanding of the game.

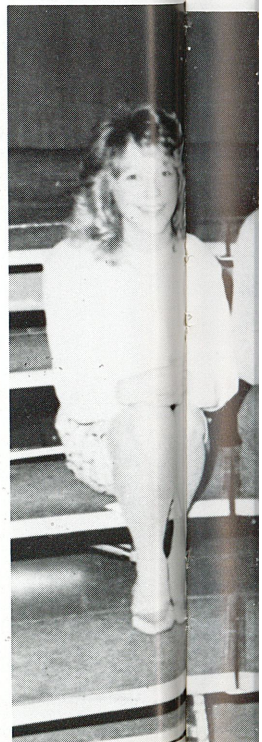

This was the second year the chess club existed under the leadership of Ruth Filer. This year saw the returning of a majority of past chess club members and a promising number of new members.

The club met twice a month during the activity period and conducted tournaments using the round-robin classification of play with the winners playing winners and losers playing losers. This worked out quite well and gave everybody the opportunity to gain experience.

The club was open to all students, and a knowledge of the game was not a prerequisite for joining the club. Although most of the students had playing experience, the members who had not played before soon learned the game and improved quite well. All of the members enjoyed competing against other members and look forward to matching their talents again next year.

THOUGHT FOR THE DAY

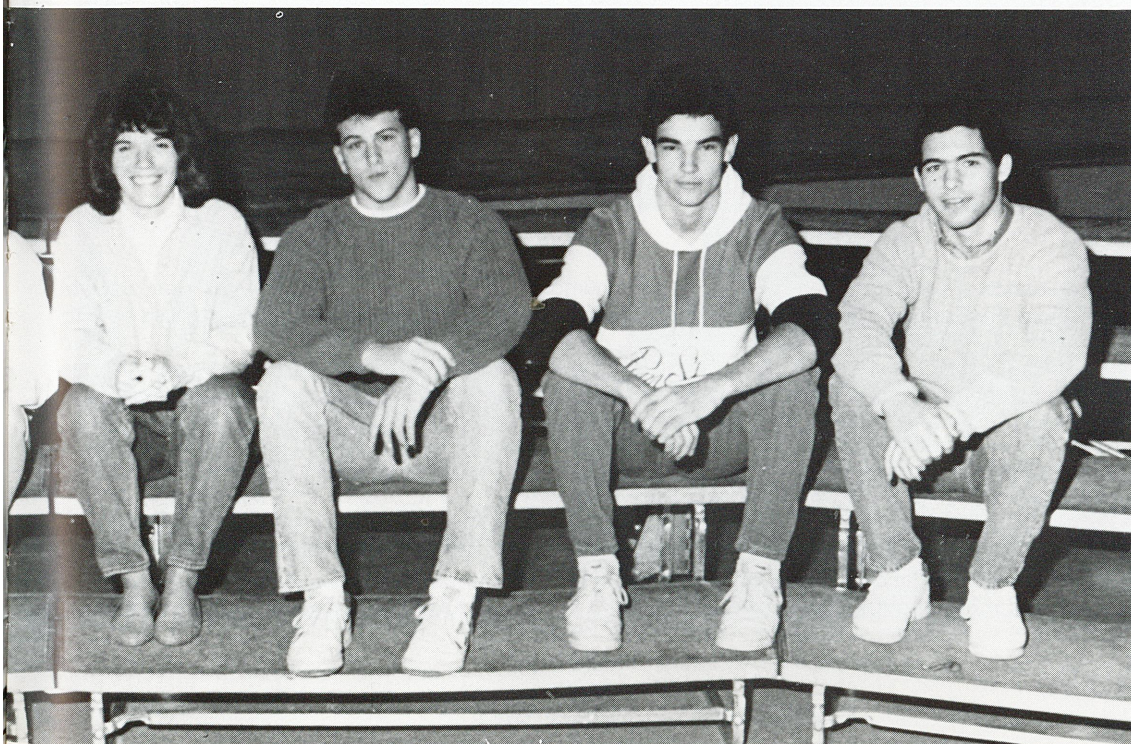

Each morning at the beginning of the announcements, students hear a quote or phrase read by a member of the Thought For the Day Club. Chosen by their guidance counselors and sponsored by Max Israel, these students alternate weekly in attempts to add a touch of wisdom to each day.

SPANISH CLUB

The Spanish Club is one of the most active clubs at Kiski. Members sold treats at Halloween and Christmas, printed *Que Pasa?*, a newspaper for Spanish students, prepared and ate a dinner with the French Club, raised over \$800 for the Christmas telethon, and sponsored Jaime Arana, a student from Mexico City. The Spanish Club also went to a performance in Pittsburgh and ate a Mexican lunch afterwards. They also participated in the Humanities Day competition at Pitt/Greensburg.

The only requirements for being in the Spanish Club are (1) you must be a sophomore, junior, or senior, and (2) you must be taking a Spanish course. A change from other clubs is that the Spanish Club has no officers. Betty Love, their sponsor, organizes committees for each event that arises. This committee then organizes and runs the activity. This change from other clubs makes the Spanish Club not only one of the most active but also one of the most unique clubs at Kiski.

GERMAN CLUB

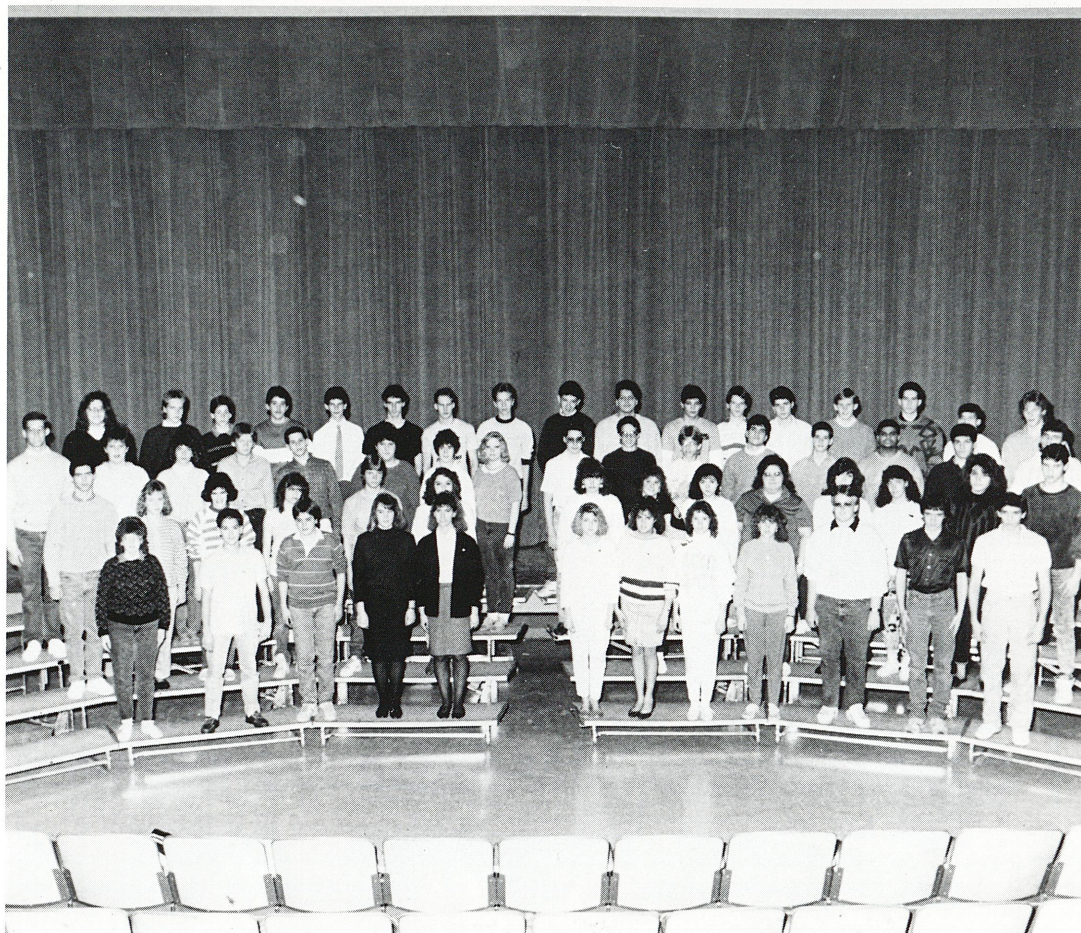

The 1987-88 German Club under the guidance of Thomas Pipkins participated in a number of activities throughout the past year. Several students traveled abroad to learn more about the German culture this past summer while two German exchange students traveled here to learn more about the American culture.

The members of the German club went Christmas Caroling with all of the proceeds going towards the Kiski Area Telethon. Christmas treats were prepared and sold by the club members as a fund raiser. Those members who wished to do so took part in Humanities Day at the University of Pitt-Greensburg. Also, those German students who were chosen by their academic standing competed in a foreign language competition held at Slippery Rock University. The German Language is a new and challenging experience for some, but it can open the doors to new opportunities.

FRENCH CLUB

The French Club, sponsored by Lois Baun, had several projects during the past year. First, the club members were given French pen pals to write back and forth to. Also, at the end of the year the club cooked a French dinner for themselves and Lois Baun. Through these activities, club members had fun and also learned more about France.

This year's student council, led by their advisor, Mr. Max Israel, has introduced new activities while maintaining traditions. Each homeroom in every grade chooses two representatives who attend monthly meetings. These representatives become involved in different projects throughout the year. This year's activities included homecoming preparations, a Halloween dress-up day, the annual senior citizens banquet, a dating game, and finally the senior slide show. One of the student council's most important goals is to break the monotony of the school year. Hopefully this year with their dedication and hard work, they succeeded.

Student Secretaries Office

STUDENT SECRETARIES

Did you ever wonder how teachers get all their work done? Teachers have student secretaries who help with their duplicating and clerical tasks. Rich Cappo was responsible for assigning the secretaries to do computer work, copying, and typing. This activity gave students interested in a secretarial future some valuable experience.

F.B.L.A.

Preparing for your future is a subject that shouldn't be taken lightly, but rather something that you work towards and plan carefully. The Future Business Leaders of America, directed by Mr. Thomas Schaeffer, helps business students to do just that. Although the majority of the members in the F.B.L.A. are enrolled in business courses, this club is open to anyone.

The F.B.L.A. is involved in a number of interscholastic business competitions. In the competitions, high school students compete in such skills as typing, public speaking, shorthand, accounting, office procedures, business math and English, and Mr. and Ms. F.B.L.A. At the end of February, the regional competition is held at the Westmoreland Community College in Youngwood. The three top winners at the regional level go on to the state competition held at Seven Springs in April. To raise money for these events, the club manages the pop machine in the teachers' room. Along with other projects, the F.B.L.A. sponsors Business Student of the Month and they buy flowers for the secretaries during National Secretary Week.

KEY CLUB

The Key Club is an organization sponsored by the Kiwanis Club. New Key Club members are voted in by the present members. To be a Key Clubber, one must be a member of the senior or junior class, maintain at least a 2.5 grade point average and be willing to serve in community and school activities. These activities include ringing the bell in front of the 5 & 10¢ in Vandergift to raise money for the Salvation Army. Setting up the Wally Taber Wildlife Safari Show, attending luncheons at Carpentieri's with Kiwanis Club officials, and sponsoring the Student-Faculty Basketball Game. Sponsoring the Key Club is Ed Wiklendt and Max Israel and officers are Ralph Antenucci (President), Dave Fields (Vice President), and Frank Waronsky (Secretary/Treasurer). Although these men provide the leadership necessary for this organization, all of the members play a key role in maintaining the respected and prestigious Key Club tradition.

VARSDTY CLUB

The Varsity Club gives recognition to dedicated athletes at Kiski. To be in the club, members must excel in a sport. They attend numerous sporting events during the year and support their fellow athletes. Club members' varsity jackets are paid for through fund-raising. They are worn with pride to the many functions that club members attend throughout the year.

The Kitchen Club consists of members of the Kitchen four, period five exclusively. The six elite members of this group are governed daily by the four secret codes. These secret codes bond the members together for all eternity. As long as one member of the group is alive, the memory of Kitchen four will live on. John Georgvich, Brian Ray, Bill Rzewnicki, Clay Saftner, Corey Troilo and Frank Waronsky are the Kitchen Club.

LIBRARY AIDES

The library aides are students who are willing to give up their activity periods and study halls to assist Ted Kulas in the library. The duties they are assigned include straightening and returning books to the shelves, checking books in and out, running passes, and preparing overdue notices. Library aides also help the students in getting microfilm, magazines, cassettes, and filmstrips when needed. The library aides work very hard to keep the Kiski library organized, and they provide invaluable assistance to Kiski students.

ART CLUB

One change in the club program at Kiski this year is the addition of an Art Club sponsored by Jack Jewart. In its first year, only Art I and II students were allowed to participate. The Art Club students decorated the auditorium halls during the Christmas season. In the future, the Art Club hopes to visit museums and have guest speakers talking about careers in art.

Kiski Pride Club

Ski Club

SKI CLUB

"To develop, improve, and execute good skiing at all ability levels, and to have fun." These are two main goals of the ski club. This year's club was under the direction of Margaret Schultz and Dennis Dupstadt, as well as two teachers from Vandergrift Intermediate School; Jeffrey Bissell and Cammie Mazanek. Two changes were made this year to improve the club. First, meetings were more productive. Representatives from Willi's Ski Shops were invited to talk to club members about skiing attire and proper equipment care. At other meetings, films on technique and safety were shown. Second, the club took its first overnight trip to the Holiday Valley and the Kissing Bridge Ski Resorts. This trip was paid for by the club's annual raffle ticket sales.

This year's members seem to agree that the club's second goal, "to have fun", was fulfilled. The five weekly trips to Hidden Valley and the one to Seven Springs benefited the experts and beginners alike. Although every club member must take lessons, the majority of their time was spent hot-doggin' by themselves.

KISKI PRIDE CLUB

The Kiski Pride Club is a relatively new club at Kiski but was very popular this year. The job of the Pride Club, sponsored by Max Israel, is to work with the cheerleaders at pep assemblies and sporting events to increase and strengthen school spirit and pride. One of the activities of the club this year was to wear blue and gold on days of pep assemblies.

11TH AND 12TH GRADE TRIVIAL PURSUIT

How many floors are there in the Empire state building? What is the main ingredient in Coca-Cola after water?

This is the type of question that eleventh and twelfth grade members of the Trivial Pursuit Club attempt to answer. The group sponsored by Tom Toland, meets twice a month. This year the group used questions created by the gifted history students in some of their games. The questions dealt with topics such as US History, World Cultures, and Economics. This club creatively mixes learning with social interaction, and the result is a great deal of enjoyment.

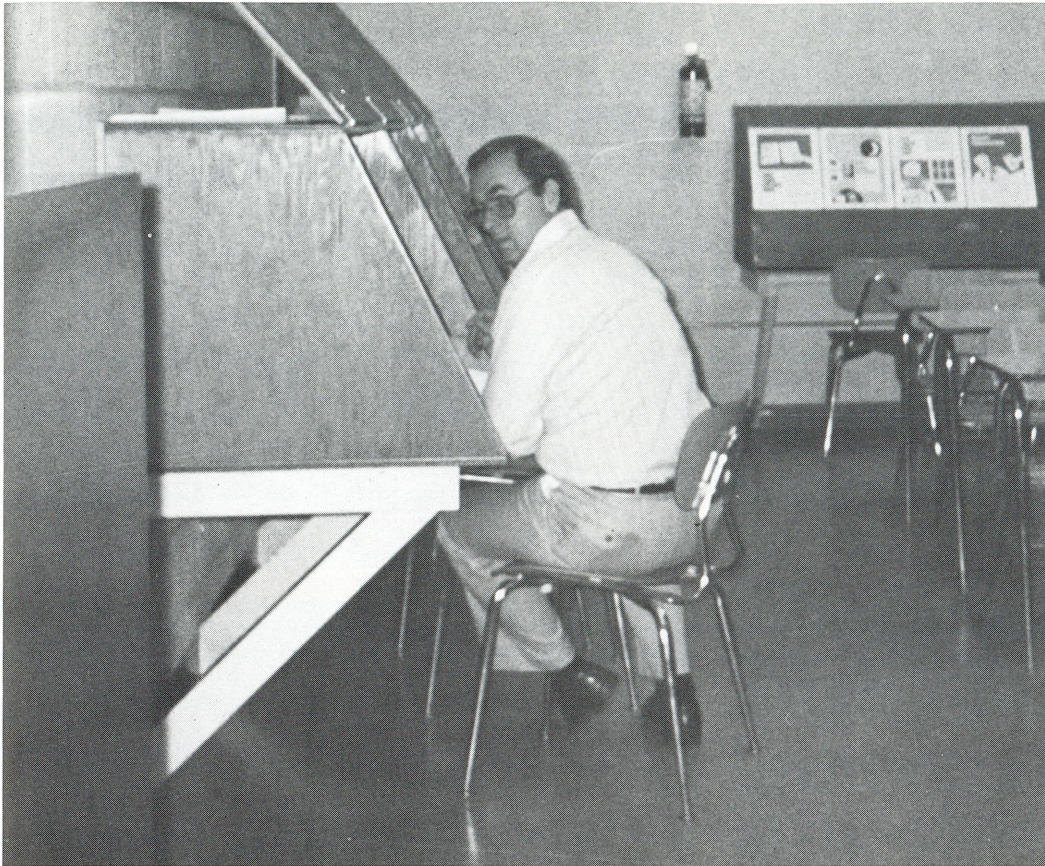

9TH AND 10TH GRADE TRIVIAL PURSUIT

The ninth and tenth grade Trivial Pursuit Club is sponsored by Angie DeSantis. The club, which meets twice a month, is a fun way for students to get together and learn something at the same time. A change in the club this year was the use of specific social studies questions. The questions, made up by the gifted history students, focused on the categories of U.S. history, World Cultures, and Economics.

Try Your Luck At These:

Who Was The Author Of Common Sense?
Which Arm On The Statue Of Liberty Is Uplifted?
What Are The Team Colors Of The Seattle Seahawks?
What Is The Average Life Span Of A Household Fly?
What Is The Most Common Solvent?

S.A.D.D.

SADD

Students Against Driving Drunk is an organization created to promote awareness of the serious problem of drunk driving. The club, sponsored by Harry Brenneman, organized a public awareness day and a cupcake sale.

S.A.D.D. underwent a substantial change this year which was an increase in membership. This increase shows that there is a growing awareness among Kiski Area students about the seriousness of driving drunk.

YTSC

Under the direction of four new officers, the Youth Traffic Safety Council underwent many changes this year. However, the club sponsor, Harry Brenneman, was there to help the club get back on its feet. As in the past, the club held seatbelt checks; however, this year they had a check each month. Comparing the results of these checks showed that as the year went on, more people began wearing their seatbelts. Another major project was the designing of new bulletin boards in the LGI room. The old designs had been there for the past five years, and the new designs gave the LGI a new look. Many fundraisers were held during the year in order to raise money for the club. The money they raised was primarily used for new pamphlets, equipment and information, but they also supported the annual charity telethon. Youth Traffic Safety Council made it through its changes well, and now it is on the way to becoming a great organization.

For only 25¢, periodically throughout the year students of Kiski Area High School have the opportunity to purchase a paper filled with important facts and interesting stories involving Kiski's current events. The paper is published by the seniors in Mr. Eugene Iagnemma's Journalism class, a semester-long, elective class in which students obtain a basic understanding of what exactly is involved in the production and distribution of a newspaper. Although our own Kiskizette may not be the *New York Times*, it gives the students invaluable experience and the students reading it something to think or laugh about.

A U T O G R A P H S

A stylized graphic design featuring a large, bold, black letter 'C' that is partially enclosed by a black outline of a triangle. To the right of the 'C', the word 'Sports' is written in a cursive script. Below the 'C', the word 'ampus' is written in a bold, black, sans-serif font, completing the word 'Campus'. The background of the graphic is filled with a series of parallel diagonal lines, creating a hatched effect. The entire graphic is set against a white background.

Sports

Kiski Area

The 1987 Cavaliers' Season Began In August With Long Hard Practices In Hopes Of Continuing The Winning Tradition At Kiski. Coach Dilts And His Staff Worked Hard In Preparing The Team For This Year's Rigorous Schedule. The Season Started Well With Three Straight Victories, But A Heart-Breaking Loss To Franklin Kept Kiski Out Of The Playoffs For The First Time In Recent Years. The Team Finished With A 3-4 Record.

Running three miles over hills and through corn-fields is not everyone's idea of fun, but for the dedicated members of the cross-country team it is. This year one major change for the team was their new coach, Mr. George Argyros. Strenuous work-outs helped the long distance runners under the new coaches supervision. Practices started the first week of August. Grueling 200's and 600's tested the runners's endurance and the unfavorable weather pushed the athletes to their limits. Through all of the practices and meets the thirty-two team members became a very close group. They helped each other cope with injuries and disappointments; however, they also shared a victorious season together. The girls had a record of 5 wins and 2 losses while the boys had 7 wins and 5 losses. The terrific season was completed when the girl's team became the Westmoreland County Champions.

The 1987-88 Soccer season was a first at Kiski. Mr. McGee and Mrs. Cignetti coached the girls while Mr. Heder took charge of the boys. The combined teams consisted of approximately thirty-five members. They started their long practices in August. Ball control skills and other basic fundamentals of the game were taught. Their home games were played at Northmoreland Park. This young team gained much experience about the game from the games they played.

Volleyball

This year's girl's volleyball team consisted of a group of athletes that strove for excellence throughout the year. Because of the dedication and patience of their coaches they had a very eventful season and were able to rise to any and all occasions. More importantly, however, was the fact that each player felt a sense of pride and accomplishment when she looked back at this past year's memories.

Golf

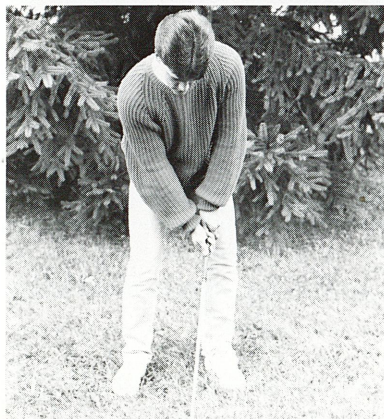

Under the supervision of Mr. Veselicky, their coach, the golf team worked hard this year to improve their game. The objective was to obtain the lowest possible score for every team member. This was particularly beneficial to the entire team because the method of determining the winner of a match has been changed this year. The five lowest scores of each team are compared as a group instead of individually. Starting practice in the beginning of August, team members prepared themselves for the season. Their hard work and perserverance was finally rewarded with a very successful record.

Kiski Area's 1987 baseball team was a group of hard working, dedicated players. Coached by Dave Giunta and Jack Jewart, the team pulled together and hung in until the end of the season with no blow outs. One of Kiski's biggest rivals was Plum who was 13-0. Our team handed them their first loss of the season by the score of 3-2. Although the team's season wasn't quite what they had hoped for, the players displayed the talents for a promising future.

Softball

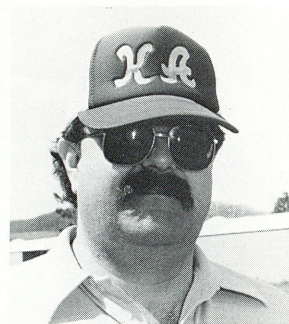

The Kiski Area High School girls varsity softball team had a fair season this past year. Although their season was not an overwhelming success, the girls have made many improvements.

The players could be seen sweating it out

on the steps or grinding it out on the field day after day in practice. Quite a few seniors were lost to graduation but several returning starters stayed on to fill their shoes. What these determined girls lacked in experience, they made up for in enthusiasm and the effort and hard work Kiski Area prides itself on. Experiencing both the joy of victory and the pain of losing, much was learned by all.

Plans are already being made for an excellent season next spring. There are many returning players that provide a young but talented team. Kiski will definitely be a threat to the other teams in their section. These upcoming girls are the ones to watch!

The 1986-87 boys track team had a rebuilding season, despite a lot of hard work. The team was very dedicated and made progress toward future winning seasons. Under the leadership of Mr. Antenucci, Mr. Poleski, and Mr. Meighan, the team gained much valuable experience.

1986-87 was the second year of existence for the Kiski Area girls track team under the leadership of Mr. Halli, Mr. Argyros, and Mr. Wicks, the team made great progress this year toward future winning seasons. Everyone worked very hard and really enjoyed themselves. The highlight of the girls' season was winning the 1987 AIC Girls' Track and Field Championship meet.

Coach Tursky, in his second year at Kiski, improved the wrestling team immensely. More participants, mainly sophomores, also helped to improve the team. The strength and stamina of the wrestlers combined to raise the status of Kiski's wrestling team. Concentration, positive attitudes, and old rivalries helped the team crush schools such as Hampton.

The Ninth Grade Lady Cavs were guided to a memorable season under Coach Tom Pipkins. It was completed with a 15 and 0 record and second place to Saint Bartholomew in a post season tournament. This was the only game the Lady Cavs lost. This effort was due to the hard work, time, and dedication of all the team adding to an unforgettable season. The future looks to be very bright for these talented girls. "Any team on any given day can beat the other."

The Kiski Area Varsity Basketball Team, rebuilt during the 1987-88 season. New, younger players with limited varsity experience were used to strengthen the future program. Head coach Sam Intrieri and assistant coach Larry Rupert built the team around senior captains Joe Woods and Scott Love. With their leadership and knowledge of the game being passed on to underclassmen, the future looks bright. The Cavs' tenacious defense and all-out hustle became trademarks of this year's team. These factors along with a bright future make the Cavs' a definite contender for many years to come.

The 1987-88 Junior Varsity Basketball Team and their coaching staff led by Larry Rupert were a contributing factor to the success of this years varsity team. Through the years, junior varsity players may have been overlooked; however, this year's team refused to be. Because of their dedication and talent a few outstanding players became starters for the varsity team. Though they may be inexperienced, and their record may not exactly show their own accomplishments they are building a very solid foundation for the future basketball program.

Swimming

Head coaches Christine Troilo and Ed Medice were joined this year by an assistant, Tammy Fasano. The swimmers responded to the new help well, and once again they practiced for many long, hard hours doing sit-ups and push-ups, running that extra mile, and of course all the work in the water. As a result of the dedication and hard work, it was an excellent season for all the team members because they saw the great experience that was available, and they went on through the year to "catch it."

Kiski Area

The cheerleaders did a great job of supporting all of Kiski's athletic teams this year. They endured all types of weather. Many long hours of practice went into perfecting the squad's routines. They attended a camp for one week during the summer and continued to have practices throughout the school year. In addition to cheering at games and pep rallies, the cheerleaders also perform in competition. Throughout the year they succeeded by getting the fans and the teams "fired up".

We all must take control and institute some of our changes in our lives.

Vocational Techni

Students from Kiski, Franklin Regional, Valley, and Burrell high schools attend the Vestmoreland Area Vocational Technical School in New Kensington. These students attend Vo-Tech for half a day, and regular classes back at their home schools for the other half. Some of the courses offered at the Vo-Tech include carpentry, welding, computers, commercial art, and masonry. The students at the Vo-Tech can go straight into the work force after graduation because they have already had the necessary training. Vo-Tech is a great experience and an invaluable opportunity for Kiski's talented technical students.

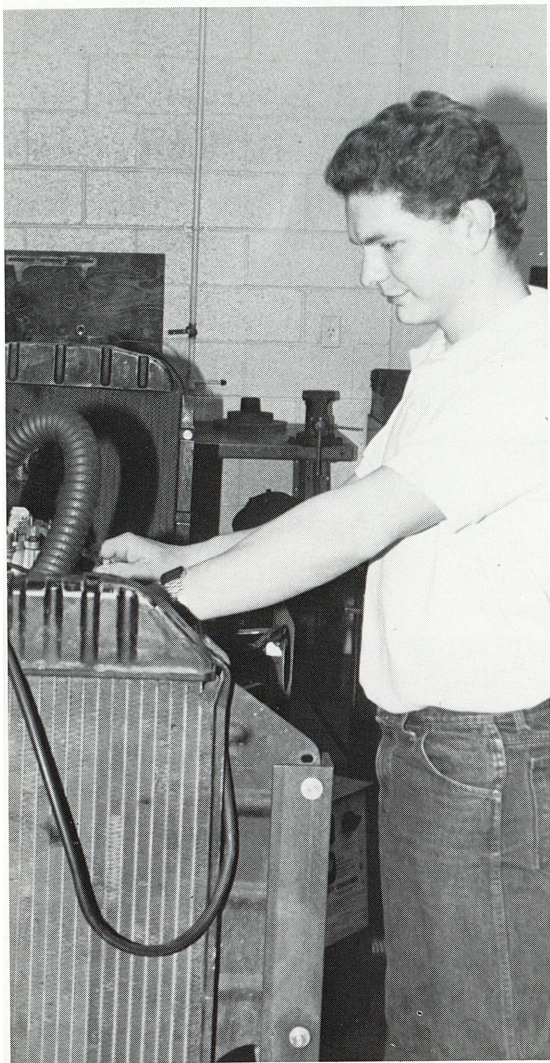

Technical School

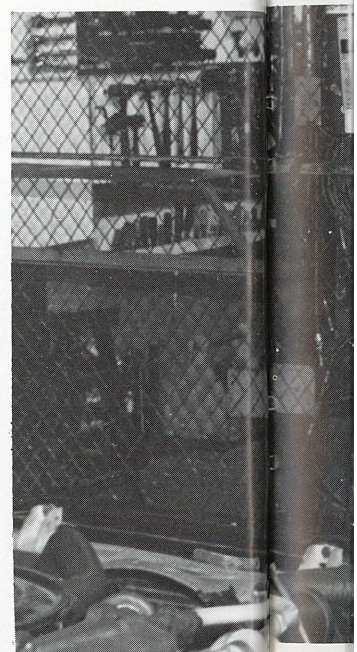

Vo-Tech students get a head start on the future as they learn their skills of their upcoming trade.

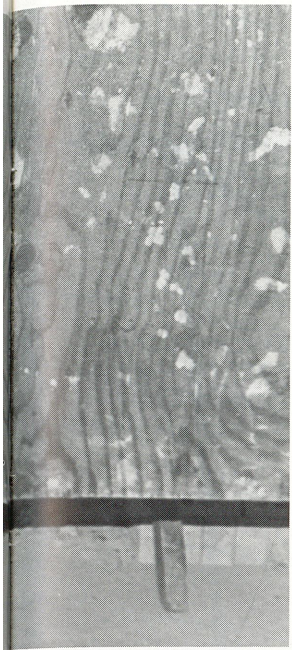

Hands On Experience In

Perfection in our areas is what we are striving towards.

In The Working Field

Beginning Vo-Tech as juniors, today's seniors are ready to face the world.

A large, stylized graphic featuring a large, bold, black letter 'C' that dominates the left side of the page. To the right of the 'C', the word 'Campus' is written in a bold, black, serif font. Above the 'Campus' text, the word 'Ads' is written in a smaller, black, cursive font. The entire graphic is set against a background of diagonal lines that fill the upper left portion of the page. The lines are thin and black, creating a textured effect. The overall design is modern and minimalist.

A Ray Of Light

A Memorandum To Lora Lee Phillips

As all mourn the death of vivacious Lora Lee Phillips, they must also recall the ray of light she shone. The ray of light she shared with everyone she knew. Lora was a 1986 Kiski Graduate. She was known and loved by all as she spread her zeal of life through participation in various activities.

Lora participated in Chorus, Drama Club, Spanish Club, Jr. Achievement, and she was also a Library Aide and an Honor Roll student. One of Lora's friends-Scott Sherry- best sums up the image each person who comes in contact with Lora holds of her in the following poem:

The Rose Beyond The Wall

Near shady wall a rose once grew,
Budded and blossomed
in God's pure light
Watered and fed by morning dew,
Shedding its sweetness day and night.

As it grew and blossomed
fair and tall,
Slowly rising to loftier height,
It came to a crevice in the wall,
Through which there shone
a beam of light.

Onward it crept with added strength,
With never a thought of fear or pride;
It followed the light
through the crevice-length

And unfolded itself on the other side.

The light, the dew, the broadening view,
Were found the same as they were before;
And it lost itself in beauties new,
Breathing its fragrance more and more.

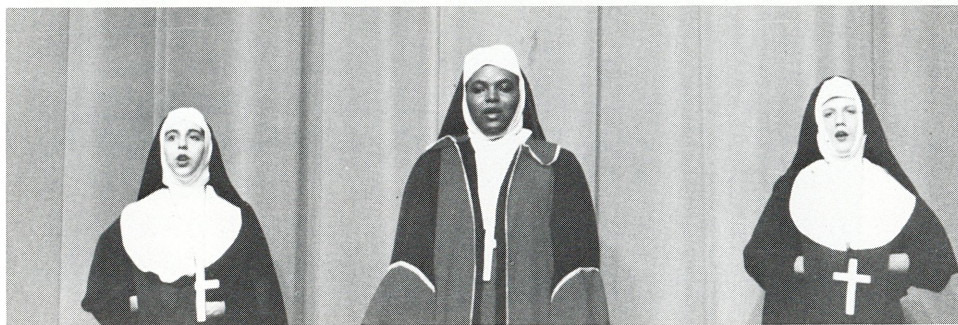

Shall claim of death cause us to grieve
And make our courage faint or fall?
Nay, let us faith and hope receive,
The rose still grows beyond the wall,

Scattering fragrance far and wide,
Just as it did in days of yore,
Just as it did on the other side,
Just it will forevermore.

A.L. Frink

1968-1987

John McClelland, Lora's chorus teacher 10-12th grade, "She loved to sing. She was the most enthusiastic chorus member I ever had. With her infectious smile, she was a ray of sunshine on a cloudy day."

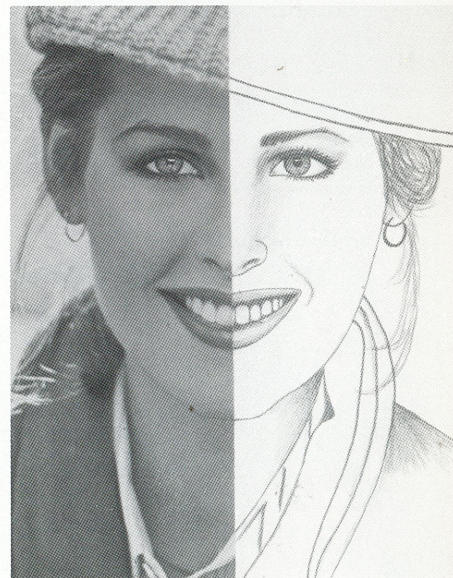

Lora held a rare view of life; she embraced it with her whole heart. Lora has something to teach us all, perhaps it is through these three sayings that she held very dear:

I believe that only one person in a thousand knows the trick of really living in the present. Most of us spend 59 minutes an hour living in the past with regret for lost joys, or shame for things badly done (both utterly useless and weakening) or in the future which we either long for or dread. The only way to live is to accept each minute as an unrepeatable miracle, which is exactly what it is-a miracle and unrepeatable.

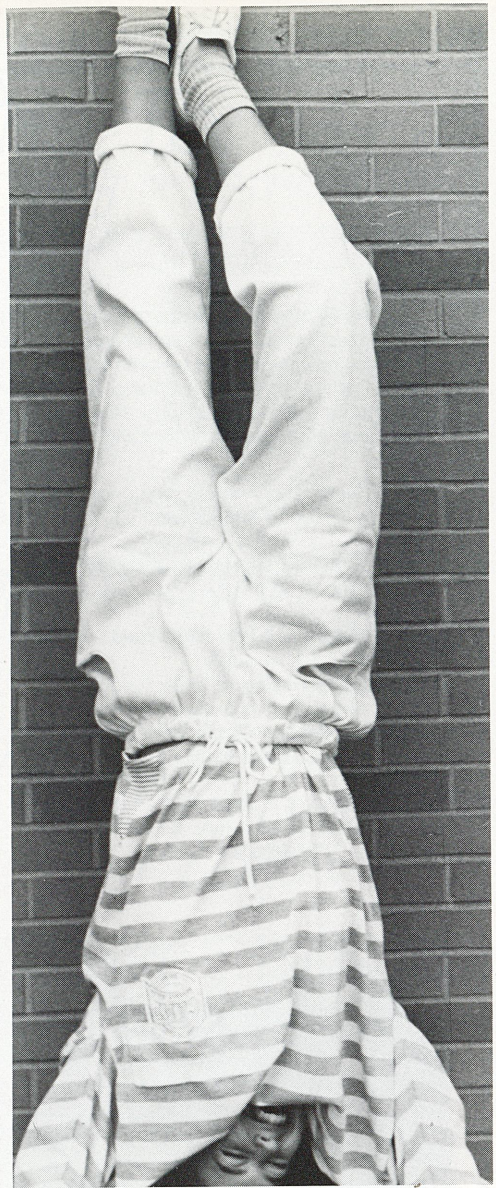

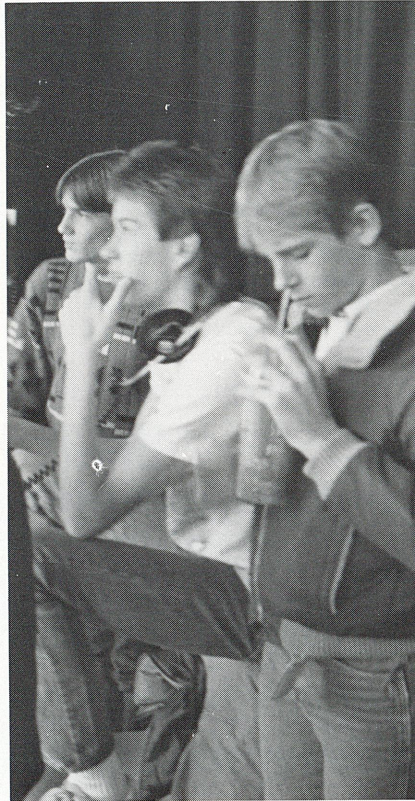

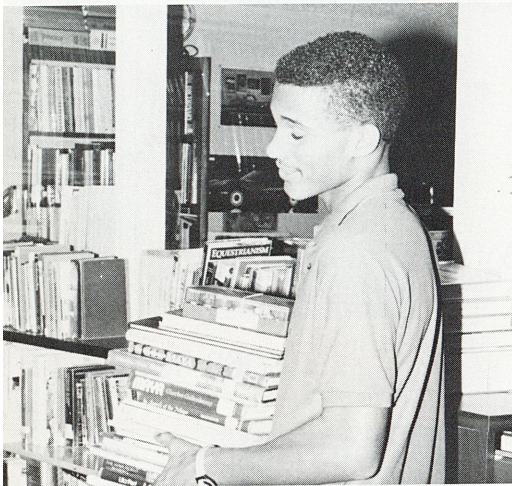

When we hate our enemies, we give them the power over us-power over our sleep, our appetite and our happiness. They would dance with joy if they knew how much they were worrying us. Our hate is not worrying them at all, but it is turning our own days and nights into a hellish turmoil.

Religious faith is not a storm celler to which men and woman can flee for refuge from the storms of life. It is, instead an inner strength that enables them to face those storms with hope and serenity. Religious faith has the miraculous power to lift ordinary human beings to greatness in seasons of stress. Religious faith is to be found in the promises of God.

Lora, an active chorus and Drama Club member, played the part of a nun in the school play "The Sound of Music".

Lora drew the right portion of the above picture.

Change can turn us all upside-down,
but . . . we can handle it!
